## SUMMARY

Experienced Fullstack Developer with a strong background in database administration. Skilled in React, Next.js, Redux, TypeScript, Linux, AWS, Kafka, and Docker. Committed to building efficient, scalable, and user-friendly web applications, with continuous learning and improvement.

## EXPERIENCE

### SRV Infotech, Kannur — Fullstack developer

DECEMBER 2022 - PRESENT

Developed and maintained CRM applications for efficient customer relationship management.

Led development of web applications using the MERN stack, implementing responsive UI components with React.js and Next.js.

Created robust server-side logic using Node.js and Express.js for API handling and database operations.

## PROJECTS

### Social Media Management System — Detail

- Developed a MERN stack web application with Socket.IO and webhooks.
- Integrated Instagram, Facebook, and Twitter APIs for centralized comment and mention management.
- Implemented features for real-time user interaction including comment replies, reactions, and follow-ups.

### Express Error Catcher — Detail

- Developed and maintained npm package 'express-error-catcher' with 50,000+ monthly downloads.
- Provided reliable error handling middleware for Express.js applications, ensuring high code quality and performance.

## SKILLS

### Frontend :

HTML5, CSS3, JavaScript, jQuery, React.js, Next.js, Redux, TypeScript

### Backend :

Node.js, Express.js, PHP, MongoDB, SQL, RabbitMQ, Kafka

### DevOps and Tools :

WordPress, Git, Docker, AWS, Nginx, Linux.

## ROLES AND RESPONSIBILITIES

### Development

Led full-stack projects using HTML, CSS, and JavaScript. Enhanced user interaction with real-time communication using webhooks and Socket.IO.

### Performance

Improved application response time and user satisfaction by 30%.

### Documentation and Code Management

Created detailed technical documentation and maintained clear code comments.

### Staying Updated :

Kept current with industry trends and technologies to improve skills and practices.
